Tips for Enhancing Your Sleep

Even the best pillow works better with healthy sleep habits:

- Keep a consistent sleep schedule
- Maintain a cool, dark, and quiet bedroom
- Avoid caffeine and electronics before bed
- Wash pillow covers and bedding regularly

Combining these habits with a Dormiva Pillow helps you achieve your most restorative sleep.

When to Replace Your Pillow

Even premium pillows eventually lose effectiveness. Replace your pillow if:

- It has lost its shape or support
- You wake up with neck or shoulder discomfort
- The pillow feels lumpy or uneven

- Allergies or irritation increase

Dormiva ensures your sleep environment remains supportive and comfortable.

Benefits include:

- Ergonomic support for proper posture
- Soft, breathable, and cooling comfort
- Durable construction for long-lasting use
- Improved sleep quality that positively impacts your life

Even a small upgrade like a premium pillow can provide lasting benefits.
